

ACTIVITY 2.6.1

For this activity, we continue with same groups formed than previous one. In this case, the one with the Job Broker role moves to job-seeker and the employer to Job Broker.

The Job Broker should interview the job-seeker (after reading job-seeker profile written in previous activity) and decide whether that person fits the offer or not. In case of negative answer he / she should let the person know and define which other methods he / she could use to find the right person according to defined profile.

Remember you had:

ENTERPRISE	POST DESCRIPTION	JOB-SEEKER PROFILE	DREAMT JOB

Did you have needed information from previous play role activity? If not, what else should have asked the employer? Did you get needed information from job-seeker? If not, what other questions could you have made?

Write your thoughts after the play role:
